APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.925 cubic feet per second.

Actual construction work shall begin on or before August 1, 1916.

Proof of commencement of work shall be filed before September 1, 1916.

Work must be prosecuted with reasonable diligence and be completed on or before August 1, 1918.

Application of water to beneficial use shall be made on or before February 1, 1920. Proof of the application of water to beneficial use must be filed with State Engineer on or before March 1, 1920.

WITNESS MY HAND AND SEAL this 1st day

Filed MAY - 1 1916

Proof of labor filed APR - 7 1917

of May, 1916.

Proof of completion of work filed AUG 30 1918

Cancelled Apr 30 1920 because of failure of applicant to comply with provisions of permit.

State Engineer.

This permit is issued subject to all prior rights on the source and in conjunction with permit No. 2825, the same land being granted a water right under each permit, namely, - 19 acres in the SW $\frac{1}{4}$ of NE $\frac{1}{4}$, 13.5 acres in the NW $\frac{1}{4}$ of SE $\frac{1}{4}$, 30 acres in the SE $\frac{1}{4}$ of NW $\frac{1}{4}$, and 30 acres in the NE $\frac{1}{4}$ of SW $\frac{1}{4}$, making a total of 92.5 acres, all in Section 35, Township 34 North, Range 23 East, M.D.B & M. The amount of water herein granted is placed at 0.925 of a cubic foot per second so that such quantity of water may be diverted and used in the event that there is no water whatever available in the source described in permit No. 2825. However, the amount of water allowed in permits Nos. 2825 and 2826 from the two sources must not exceed 0.925 of a cubic foot per second. The applicant will be required at the time of filing proof of beneficial use to show definitely the method by which the water of these sources is combined to irrigate the reclaimed land. A stand-pipe and headgate and weir must be installed at or near the point of diversion to facilitate the measurement and control of water. The State reserves the right to regulate the use of the water herein granted at any and all times in order to insure the proper distribution thereof.
